I. Statement of Joint Objectives

A. Purpose. This agreement is made and entered into by the U.S. Department of the Interior, Bureau of Land Management, Oregon/Washington State Office, hereinafter referred to as the BLM, and the Azalea Rural Fire Protection District, hereinafter referred to as District, to promote fire protection of areas of common concern relating to the lands and resources, which include fish and wildlife habitat, administered by the BLM and rural areas protected by the District.

B. Objective. The primary objective of this agreement is to provide a means of joint cooperation between the BLM and the District in order to protect public lands and rural residential structures from wildland fires.

Specific Objectives

1. The construction and maintenance a water pumping station which will be mutually beneficial and accessible to all agencies/organizations involved in fire suppression in southern Douglas County, Oregon. This project will be accomplished through issuance of a task order. Future task orders will be of similar nature and will not be for costs of actual fire fighting.

2. Promote cooperative relationships between all agencies/organizations involved in fire suppression in southern Douglas County Oregon.

3. Share resources between BLM and the District including materials, supplies, expertise, and funding that will mutually benefit the shared goals of these agencies/organizations.

4. Provide a mutually beneficial process for BLM and the District to jointly identify, communicate and coordinate actions of common concern relating to the management of public lands and resources.

5. Meet legal, social, and economic expectations of local communities by coordinated fire management efforts, and become an example for possible partnership arrangements for other fire suppression organizations.

C. Authority. The basis for this agreement is found on support or stimulation of a public purpose authorized by the following Federal statute(s):

1. Omnibus Consolidated Appropriations Act of 1997, Wyden Amendment, (Public Law 104-208).

3. Federal Land Policy and Management Act of 1976 (Public Law 94-579, Section 307 (b) and 502 (a)).

D. Benefits. The activity to be undertaken through this agreement are in furtherance of the BLM and the District mission by the providing the following benefits:

1. Benefits to the Public: This cooperation will greatly enhance the effectiveness and outcomes of the District's fire fighting efforts. The sharing of information, materials, supplies, and expertise will shorten the Districts response time to rural residential and wildland fires in their area. This shortened response time will in turn promote a greater sense of security for the citizens of this rural area.

2. Benefits to the District: This agreement will support a means for providing an effective cooperative working relationship between the BLM and the District, and combine technical expertise, funding, materials, and services toward the goal of wildland and rural residential fire protection.

3. Benefits to BLM: This agreement will support a means for providing an effective cooperative working relationship between the BLM and the District, and combine technical expertise, funding, materials, and services toward the goal of wildland and rural residential fire protection.
